TSI Student Poster Award

The first three best poster presentations will be evaluated by an international committee composed by different reviewers, in order to have expert persons for each specific topic, and by two world-renowned scientists who, on the basis of the reviewers reports and of their own expertise, will declare the 1st, 2nd and 3rd award.

Posters will be evaluated on the following bases:

1. Novelty of the proposed research and scientific soundness
2. Effective contribution of the presenting student to the overall work
3. Clarity of presentation

All students that are interested in participating in the competition have to be registered before **July 15**.

The winners will be awarded a prize money offered by [TSI](#) and will be declared during the Social dinner on September 19.

UNDERSTANDING, ACCELERATED
