

As the largest university of applied sciences in Rhineland-Palatinate, Koblenz University of Applied Sciences offers a diverse academic education in an inspiring learning environment and promotes application-oriented research.

The following professorship is to be filled in the department Business and Social Sciences at the location Remagen as soon as possible:

**Professor (f/m/d)
for Global Sustainable Economics and Circularity
(Base Salary: W 2)**

Part-time employment is possible.

Your tasks

- Teaching (predominantly in English) in the subject areas basic economic courses, sustainability and/or transformation and the study programmes Sustainable Transformation Management (B.A.)
- Establishment of a research profile as well as national and international research activities incl. publications
- Networking with regional stakeholders (companies, associations, etc.)
- Participation in academic self-administration
- Responsibility for our international partnerships within our double degree programmes

Your profile:

- Professional expertise in the teaching area of economics, sustainability and/or transformation
- Several years of relevant professional experience, ideally leadership experience
- Enthusiasm for working with young people and their development
- Openness for the further development and implementation of innovative teaching concepts
- Openness to develop new teaching content according to further strategic development
- High social competence in dealing with students, colleagues and employees
- Fluent in English (minimum C2-level) and in German (minimum B2-level)

The hiring requirements for professorships result from § 49 of the Higher Education Act of Rhineland-Palatinate (HochSchG).

Our offer:

- An attractive and varied working environment with the opportunity to shape and develop the field independently
- Accompanying enthusiastic young people on their academic path into the professional world
- Support in the conception of modern and innovative teaching
- A broad network of foreign partner universities built up over many years

Koblenz University of Applied Sciences advocates diversity, equal opportunities and work-life balance. Koblenz University of Applied Sciences promotes women. Women are given preferential consideration in cases of equal aptitude, ability and professional performance, as there is an under-representation in the area of professorships at Koblenz University of Applied Sciences (§ 3 para. 8 State Equal Opportunities Act RLP). Therefore, qualified female academics are expressly encouraged to apply. People with severe disabilities will be given preference in the case of equal suitability.

We look forward to receiving your application (with curriculum vitae, certificates, list of publications and previous teaching experience, research exposé, proof of disability if applicable) via our [online application portal](#) by the deadline **31st August 2025**.
