

As the largest university of applied sciences in Rhineland-Palatinate, Koblenz University of Applied Sciences offers a diverse academic education in an inspiring learning environment and promotes application-oriented research.

The following professorship is to be filled in the department Business and Social Sciences at the location Remagen as soon as possible:

**Professor (f/m/d)  
in Economics, with a focus on Innovation Economics  
(Base Salary: W 2)**

**Part-time employment is possible.**

**Your tasks:**

- Teaching (in German and English) in the field of Economics within the degree programs of the Faculty of Business and Social Sciences, especially in Introductory Economics, Innovation Economics, and advanced courses in Economics
- Establishment of a research profile as well as national and international research activities incl. publications
- Networking with regional stakeholders (companies, transfer networks, innovation platforms, technology transfer offices, competence networks etc.)
- Participation in academic self-administration

**Your profile:**

- Professional expertise in the field of Economics, covering both research and teaching
- Background in innovation economics, ideally with a focus on regional economics
- Several years of relevant professional experience, ideally leadership experience
- Enthusiasm for working with young people and their development
- Openness for the further development and implementation of innovative teaching concepts
- Openness to develop new teaching content according to further strategic employment
- High social competence in dealing with students, colleagues and employees
- Fluent in German (minimum C2-level) and in English (minimum C1-level)

The hiring requirements for professorships result from § 49 of the Higher Education Act of Rhineland-Palatinate (HochSchG).

**Our offer:**

- An attractive and varied working environment with the opportunity to shape and develop the field independently
- Accompanying enthusiastic young people on their academic path into the professional world
- Support in the conception of modern and innovative teaching
- Connection to a research-strong team
- A broad network of foreign partner universities built up over many years

Koblenz University of Applied Sciences advocates diversity, equal opportunities and work-life balance. Koblenz University of Applied Sciences promotes women. Women are given preferential consideration in cases of equal aptitude, ability and professional performance, as there is an under-representation in the area of professorships at Koblenz University of Applied Sciences (§ 3 para. 8 State Equal Opportunities Act RLP). Therefore, qualified female academics are expressly encouraged to apply. People with severe disabilities will be given preference in the case of equal suitability.

We look forward to receiving your application (with curriculum vitae, certificates, list of publications and previous teaching experience, research exposé, proof of disability if applicable) via our [online application portal](#) by the deadline **9<sup>th</sup> August 2026**.
